PRESENTATION OF FLAG TO PUBLIC SCHOOL

A large concourse of people gathered at the school grounds on Friday afternoon last, at the invitation of the local chapters of the I. O. O. F., where, in their presence, the formal presentation of a six by twelve Union Jack took place. The presentation was made through Mr. Hamilton to the Board of Trustees, by Mrs. L. H. Putman, regent of the Crow's Nest Chapter. Mr. Hamilton made fitting reply after the emblem had been raised to its floating position.

Mr. Hamilton then called upon Rev. Cosman, Neale and Young, all of whom made fitting remarks. The children of the school, some 400 in number, were lined up in charge of their teachers, while the Boy Scouts occupied a position immediately in front of the speakers.

At the conclusion, Mr. Hamilton, in lieu of Empire Day falling on Sunday, awarded the school a holiday on Monday, which to the children was the most interesting item on the programme.

"God Save the King."

Humor in Advertising

Wanted—A further room for single gentlemen looking both ways and well ventilated.

Wanted—A good girl to cook and one who will make a good roast or boil and will stew well.

Wanted — A young man to take care of a pair of mules of Christian disposition.

Wanted—A laborer and a boy with grazing for two goats: both Protestants.

Wanted—A competent person to undertake the sale of a new medicine that will prove lucrative to the undertaker.

TOWN COUNCIL SESSION

The regular meeting of the Town Council was held on Monday night, with Mayor McLeod and Councillors Gillis, Montalbetti, Morgan, McDonald, Ferguson and Patterson in attendance.

The minutes of previous meeting were read and approved and the following accounts were passed for payment, subject to approval by committee: J. Davis, \$16; G. Arcuri, \$16; C. Fauver, \$21; E. Elliott, \$16; N. Nicofor, \$16; M. Stigler, \$14; T. Williams, \$16; F. Goulding, \$14; G. Van Busch, \$16; J. Stewart, \$12; B. Serandi, \$44; W. Lorne, \$200; Canadian General Electric, \$184.89; C. Harrison, \$16; A. Chala, \$14; S. Banco, \$2; D. Maruca, \$16; Alberta Government Telephones, \$13.20; Land Titles Office, \$6.60; J. Stafford, \$55; S. Eam's, \$152.30; Workmen's Compensation Board, \$46.40; S. Howarth, \$12; D. C. Drain, \$12; J. Arcuri, \$16; Town of Blaimore, \$24.25; J. E. Upton, \$75; R. Crayford, \$46; J. Spence, \$150; E. Wright, \$150, and W. W. Loughby, \$40.

Accounts in connection with Upton fire, presented by firefighters, caused a tie vote and the Mayor declared the motion, to pay lost.

Fire Chief McDougall presented his report, which was ordered filed.

Ferguson - Montalbetti: That a Fire Alarm and Fire Truck be purchased at once. Three councillors for and three against. Mayor declared motion lost.

McDonald-Morgan: That the Town take steps at once to purchase an electric fire alarm. Motion carried.

Ferguson - Montalbetti: That the Town at once purchase a Ford Truck chassis and have body built on it for fire purposes. Upon Council agreeing to inspect Fincher Creek and Coleman trucks and equipment, motion was withdrawn.

Upon motion, Mr. L. H. Putman's application for solicitorship was accepted, the retaining fee to be \$300.

Permission was granted Rev. P. J. N. Cosman to erect an auto garage at the rear of his residence on State Street.

Application from the West Canadian Collieries for hydrants at the corners of Second Avenue and Victoria Street, near Union Bank, and at River Street, left in hand of chairman of waterworks committee to deal with.

It was decided to cut down and grade the washed out portion of River Drive in the Riverside Addition.

DEATH OF MISS HENDERSON

Miss Dorothy Henderson, eldest daughter of Mayor and Mrs. G. G. Henderson, of Fernie, passed away at Fernie on Monday evening, following a brief illness. Miss Henderson was well known and very popular and her passing away has cast a gloom over the Pass. On several occasions she appeared in this district with the Fernie "Swastika" ladies' hockey team.

The Enterprise takes this occasion of joining in sympathy with the bereaved.

LOCAL ODDFELLOWS WILL OBSERVE MEMORIAL DAY

During the next few weeks, the members of the I.O.O.F. and Sister Rebekahs in this district will fittingly observe the memory of their departed members by decorating graves and holding the prescribed memorial services.

The first of the series will be held at Coleman on the afternoon of Sunday, June 8th, to which all members and friends are asked to attend. Bellevue and Blaimore Lodges will hold similar functions on the 15th and 22nd respectively.

Twenty lives were lost in a fire which destroyed the Windsor Hotel at Newark, N.J. on Tuesday morning.

She—"Should one call you professor or doctor?"

He—"Oh, anything you like. Some people call me an old idiot."

She—"Really! But then they would be people who knew you intimately."

A man who marries for money but gets little of it is a preacher.

Mr. and Mrs. G. N. Elwin have moved from Mimico Beach, Ontario, to Walkerville to reside.

The British Navy

The Strong Right Arm In Time O
Gave Best

Nations are out of luck when the wilful ideas of men contradict all the men know of human motives and action. Here in the United States we may blunder and blunder through

The bill (for national defence) is stiff but it can be paid. There are some blunders Great Britain cannot make and survive. A dockers' strike can make it hungry. A superior fleet

could starve it into subjection even if there were not any army behind the better navy. Even Mr. MacDonald, a disarmament man before he headed the government, will not take that re-

responsibility, and it is good for England that he will not and that, even if he would, he cannot control a majority to put such a programme over.—Chicago Tribune.

**At 80 Years Of Age
Was Troubled With
Shortness Of Breath**

**Palpitation Of The Heart
And Fainting Spells**

Mrs. M. O'Connor, Whiteshore, Ont.

writes:—"I have been troubled, most of my life, with shortness of breath, palpitation of the heart and fainting spells. I was advised by a friend to try Milburn's Heart and Nerve Pills,

I am 80 years of age and always keep them in the house, and when I feel any symptoms of my old trouble

coming on all I have to do is to take a few doses. With the help of your Pills I expect to see many years yet. I always recommend them to any one who is suffering from heart trouble."

Milburn's Heart and Nerve Pills are

Minnows Destroy Mosquitoes
Butte County, In Central California

has employed Gambusia minnows to destroy mosquitoes, says an Associated Press despatch from Oroville, Cal. These tiny fish placed in irrigation ditches, ponds and lakes, elimin-

ate the mosquitoes at their breeding places. Mosquitoes had become a nuisance in this region, but since the minnows were planted the pest has diminished rapidly.

SHARK FINS, A CHINESE FOOD DELICACY

Despite their name, all sharks fins are of resistance of the former or semi-formal Chinese dinner, do not come from sharks. Many do, of course, and thus they have received their name, but fins of several varieties of fish are prepared and go into the now famous food. It is difficult to explain why fins have become so popular on the menu that a dinner is not considered well ordered unless the main course served is "sharks fins" but such is the case in many parts of China. It is customary to speak of the dish as having a particularly delicate flavor, but as a matter of fact there is no flavor unless a mild color may be called.

The Chinese gentleman who wishes to invite six or eight important friends to a restaurant to dinner sends them about a single round plate and they take food from bowls placed in the center. A "sharks fin" as a meal pretending to be somewhat extravagant is called, costs \$10 or more in Shanghai. This sum secures dishes sufficient to serve a small party. If the friends come in for a short supper and are served with a single bowl, the cost is \$1 or \$2. The fins, of course, are to be had in several quantities, and in Canton the epicure may pay \$60 or more for a large dish, without supplementary courses. Among the varieties to be had are "whole" and "scattered." Those scattered whole are of the better quality, while scattered indicates that particles are used.

Fins are always dried before shipping and the cook receives them in this form. The dried prepared of fins alone is gelatinous and of a stringy texture, reminding one of fish mackerel. The first step in preparing for the table is to parboil them for 8 hours until they become soft. Then the surface is scraped and thorough washing takes out the sand which may have become imbedded in the skin.

After this they are given another long boiling, but even with this extensive boiling and soaking they retain a disagreeable odor. The fins are then washed in a number of changes of cold water, this process largely eliminating the smell. Three or four days are usually given to preparing for the table, as the greater time taken reduces the odor. Herring is usually added in spring, while in winter vegetables are added, in which case the restaurant price for a given size bowl is lower. It is the custom to use cam flour in preparing the dish, thus adding to the gelatinous nature of the food. Brown sugar, sauce, and sugar candy are sometimes added.

With this dish occupying such an important place on the Chinese menu, there is scarcely a restaurant where it is not always ready to be served on short notice. One of the best known in Shanghai specializing in fish dishes is the Huns Yung Lo on Rue du Consul. There, as at many other restaurants in the city, a person may have a simple shark fin meal for \$1.

It is considered that a variety known as Wukon is the best for stewed dishes. This is bought, dry, for upward of \$5 a quantity of 1-1/3 pounds. A variety known as Manli sells for \$7.50 or more a catty. A grade known as paired is shipped to Shanghai from Hongkong, the fish being given because the fins are small and it is the custom that two of these be used for a large bowl. These are \$5 or more a catty. Those from Fukien or Formosa bring from \$3 to \$4 a catty. Occasionally single fins from these latter places are to be seen in the market weighing two catties or more, but the average is considerably smaller.

The fisherman operating along the coast of Fukien send a large quantity of fins to market, as in fact do those all along the southern and lower eastern coasts of China, and importations are considerable from Formosa and from ports in the tropics west of China. Most Fukien fishermen dispose of their catch to shops along Lower Hanchow street, Foochow, there being fifty or more dealers there who prepare and dry for the market. The fins and tails are not the only parts sold, as one of the arts, practiced is that of shredding and drying skin, which is put in bundles looking like yellow gelatinous string. This, too, is one of the varieties of "sharks fins."

In Loving Memory

Harold Evan, darling child of
Mr. and Mrs. M. Joyce, who died
June 1st, 1923.

A year has gone and friends around us
Think the wound is almost healed.
But they little know the sorrow
Deep within our hearts concealed.

Oldsmobile Roadster
\$1390

The startling low price at which Olds Motor Works of Canada, Ltd., is now enabled to market the new Model-30 Six has nothing in common with the excellence of its performance, or the high grade materials and painstaking workmanship in its manufacture.

Stylish in appearance and faultlessly efficient in operation, the new Model-30 Roadster finds a definite welcome in the world of business and recreation. It seats two adult persons comfortably and provides a generous storage space under the rear deck. Dash arrangement includes speedometer, oil pressure gauge, ammeter, dash light, choke, lighting and ignition switches, all mounted in a harmonious and convenient manner. Bodies of Standard Roadsters and Touring are painted in a beautiful shade of dark blue, neatly striped.

FUMIGALI BROS., Hillcrest

—ARE DISTRICT AGENTS AND WILL DEMONSTRATE—

Here and There

Earnings of the Canadian Pacific Railway for the last ten days of March amounted to \$4,066,000, as compared with \$4,213,000 for the corresponding period a year ago. This is an increase of \$153,000 or 4.2 per cent.

Immigration to Canada during the eleven months ending February, 1924, totaled 138,128, divided as follows: British, 57,025; from the United States, 10,120; from all other countries, 48,982. This compares very favorably with 1923. Already Roadsters and Touring are painted in a beautiful shade of dark blue, neatly striped.

Forty pilgrims to the famous shrine at Ste. Anne de Beaupre, Quebec, have already been arranged for June, July and August this year. Over 200,000 visitors are expected, most of them from Montreal, Toronto, Buffalo, Philadelphia, Chicago, New York and Boston.

Although it has already spent \$4,000,000 in drilling for oil in Alberta without very definite results, the Imperial Oil Limited, proposes to keep at its development campaign, so F. J. Wolfe, director of marketing for the concern, states. Already the company's \$2,500,000 refinery at Calgary has had the effect of keeping prices down, he says.

An important industrial enterprise is being added to the list in Montreal in the plant of the National Cement Company, which is being constructed in the town of St. Lawrence. East on the site of one of the largest deposits of raw material for cement in Canada. The first unit of the plant will have a capacity of 900,000 barrels per annum.

A total of 969 communities in Alberta are now served by the provincial Government telephone system. The total number of phones served in the system is 67,279, of which 22,260 are exchange phones, 20,252 are rural phones and 1,089 are private party lines and 15,388 are connecting subscribers. There are 284 exchanges in the province, with 301 toll offices and 62 private party lines.

The growing importance of Canada's trade in the Pacific is reflected in the official statistics of the Vancouver Harbor Board for the month of December, 1923, which shows a substantial increase in shipping in that port over the same month in 1922. Total shipping through the port amounted to 434,482 tons, valued at \$11,411,120, an increase over December, 1922, of 122,602 in tonnage and \$2,703,073, in value.

Ten 10,000 Imperial gallon tenders, for use behind the St. Lawrence engines used in the Western mountains, have been ordered from the Canadian Locomotive Company, Ltd., Kingston, by the Canadian Pacific Railway at a price of \$12,410 each, delivery to start in May and be completed in June this year. These tenders will give more efficient coal and water service than any others in this country.

During the year 1924, 96 arrivals and departures on the St. Lawrence route, with its different results, to be maintained throughout the summer months by its popular motor-cabin class and Empire class steamers, will constitute the Canadian programme of the Canadian Pacific Railway's steamships. A combined tonnage of 197,000 gross tons will be in operation on the Pacific and the Company's flag, the largest

Here and There

The annual statement of the Canadian Pacific Railway and the report which the company's president, E. W. Beatty, made to the shareholders at the annual meeting are matters of first rate interest, not only to the fast growing number of Canadian citizens who are part owners in the great railway, but to all interested in Canadian progress and development. By reason of the way in which the company's operations touch all phases of Canadian life and enterprise there can be no pronounced depression or prosperity in any part of the country without its being reflected in the earnings of the Canadian Pacific. There is a barometer of the country's foreign trade also in the results of the operations of the company's steamships upon the Atlantic and Pacific oceans.

Thus there was considerable reason for gratification in the president's statement made at the annual meeting on May 17th, that the operations of the company had been conducted throughout 1923 in a satisfactory manner and with satisfactory results. Mr. Beatty pointed out that gross earnings for the year, which had totalled \$159,267,000, were greater by \$9,162,000 than those of 1922. Working expenses, however, increased by \$7,984,000 to \$150,285,000. This large increase in operating costs was due to the large expenditures made upon the property in order that it might be kept to the highest possible physical standard and capable of rendering the best possible service to the community. As a result the property was now in so excellent a condition as it now is. Net earnings for the year were \$27,470,000, an increase of \$1,777,000.

The total tonnage moved by the company during the year was 10,302,994, an increase over that of the previous year of \$1,048,408, due to a heavier movement of grain, lumber, manufactured articles and general merchandise, the largest increase being in grain and grain products. Mr. Beatty pointed out that this satisfactory condition had extended well into the present year and that due to favorable operating conditions and heavy traffic net earnings for the first quarter of 1924 had increased over those of the same period last year by \$1,553,214.

Referring to the Government system of railroads, Mr. Beatty said that the difference between it and the Canadian Pacific was largely in name only and in the accident of personnel. The Canadian Pacific and the securities of both systems were owned by private investors throughout the world and there was a significant steady increase in both Canadian and British holdings of Canadian Pacific common stock. Two phases of the general railway situation called for criticism. Under a statute passed in 1918 the Government-owned lines may construct branches without approval as to location and other details of the Railway Commission. Thus they may parallel or duplicate existing lines of any one company and the Minister approves and parliament authorizes the expenditure. Mr. Beatty stated that in his opinion it was equally in the interests of the Canadian people and of all Canadian railroads that the companies should be in the same position in this respect. The other phase was the result of the Crow's Nest Pass agreement of 1907. It had established special rates for freight rates under conditions of operating costs which no longer exist and differences in which would not be permitted under the general Railway Act because of their unfairness in relation to commodity rates and other articles and to the rates effective in other parts of Canada. The greatest advantage to shippers as a whole would be secured if all rates were made subject to review and change as conditions warrant by the tribunal constituted for that purpose.

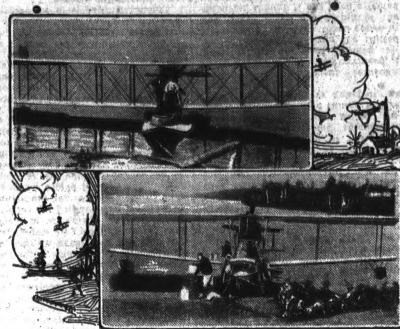

In referring to the outlook for the future, Mr. Beatty said that while there was a noticeable lull in domestic and export shipments due in part to unsettledness in industrial districts, general business during the first quarter of the year had been satisfactory. The crop acreage would probably be about the same as last year and, generally speaking, soil conditions were excellent. "If the total yield approaches that of 1923," said Mr. Beatty, "there will undoubtedly be a very extensive autumn business and a vastly improved psychological and financial situation throughout the whole country. There is no real pessimism in respect of the future of either the company or the country, though an extraordinary advance too rapid advance is neither to be expected nor desired."

George Heaton, of Mayeroff, had had the name of his ranch registered at "Park Ranch."

amount yet assigned to a single line to steamship passenger traffic on the St. Lawrence route.

Canada's unfavorable trade balance with the United States is more than equalled by her favorable trade balance with the United Kingdom, according to the figures of the Bureau of Statistics. For the year ending February, Canada's imports from the United States were \$28,000,000 and her exports to that country \$28,000,000, an excess of imports of \$17,000,000. As for the United Kingdom, Canada's exports to that country were \$35,000,000, and the imports from that country \$15,000,000, a surplus of \$20,000,000 on the side of exports.

One Flies to the North

"Contact!" "Contact!" The last audible words between pilot and mechanic are spoken, and with stentorian roar of engine and propeller, the giant, human and baggage freighted plane, glides swiftly over the surface of the Quinze. One feels the churning waters tumbling at the bottom of the boat until momentum has increased to such extent that a touch of the "stick" causes the Victoria Viking to slowly rise.

Two turns in as many minutes and the passenger, having adjusted his goggles and seated himself more comfortably, peers, at first cautiously, over the side of the pit, and far below him lies the little town of Anglin, the forest to the south like a living thing. The earth is as a map below, lakes and rivers shining in the distance and beneath, and rugged patches of bush and arable land smudged here and there like a child's attempt to depict relief.

Turning east the plane heads down Lake Quinze, following the water north over one of its tributaries to Lake Fortune and Rouyn, upon nearing which the plane leaves the glorious rolling clouds and gradually sinks until once more the water tumps the bottom of the hull, checking it with sudden jerks which tend to slow the boat until it stops within a few feet of tie-up. One wonders how the pilot could, at such a speed, have judged his distance so well. But then he does the same thing more than once each day bringing to the new Gold Fields of Quebec, in fifty minutes, passengers and supplies which, before the air service was started took two days at the least to arrive.

Commencing May 18th the Air Service to the Gold Fields will be regular on Monday, Wednesday and Friday, large flying boats capable of carrying five people being scheduled to meet all Canadian Pacific trains at Anglin. This service, which will eliminate the hardships of the past and enable prospectors and tourists to travel to the Rouyn Mining District in less than an hour will include regular stops where they are required and accommodation is available.

AN "EXPERT'S" ADVICE

An advertising manager of a large chain of retail stores is said to have received the following communication: "I don't like your advertisement. It gives a sameness to the display and

raiment or display. The editorial matter, too, consists of strong statements without any attempt at convincing arguments, like I would write. The border is not very good and it is a mistake to use it in every advertisement. It gives a sameness to the display and

What the two behind be for.

Maori Retains Native Customs

Above—Pikikahi Harbor, Dusky Sound, first discovered by Captain Cook in 1770. Inset—A Maori man in traditional dress. Below—A Maori woman in traditional dress.

The earliest days of settlement of the South Islands were marked by the fame of New Zealand's wonderful scenic attractions has spread abroad and they are not regarded as with-out equal by their kind in the world. Within the compass of the two main islands are found virgin forests full of remarkable subtropical vegetation with many rare and beautiful flowers; wonderful thermal regions cover a wide area in the centre of the North Island where volcanoes, geysers, boiling springs and countless other manifestations of nature's titanic hidden forces are manifest. The lakes and floods of the South Island are of an unimaginable grandeur and magnificence, and the country provides excellent sport for the fisherman or big game hunter, with his trout and salmon filled rivers, and the finest deer herds of the interior. At Returns, on the Northern Islands, may be studied many interesting phases of Maori life, here the Maori still retains most of the old customs and traditions of his forefathers and all to be met in a country once counts upon his pad-

A MOST IMPORTANT ANNOUNCEMENT

FOR THE PEOPLE OF

Blairmore and District

THE CHRISTIE GRANT CO'Y

Canada's Great Cash Merchants Open Their Branch Store at Blairmore FRIDAY Morning, May 30, at 8.30

Why your dollars go further when you shop at Christie Grant's -- We buy for Cash and sell for Cash.

A big assortment of **MEN'S WORK SHIRTS** in chambray, tweeds and stripes, priced 98c. to \$1.45

WONDERFUL VALUES IN **Men's Dress Shirts**
Special Line in new stripes 79c.
Values to \$1.65
Other lines in Broad Cloths, Fancy Stripes, White, etc., priced from \$1.45 TO \$3.95

MEN'S PYJAMAS, fancy stripes, silk trimmed, reg. \$2.95 1.78

We have a full range of Men's Underwear for summer wear at very reasonable prices. See our stock.

Our prices on **RUNNING SHOES** for Men, Women and Children will be found lowest in the district. All new stock.

Men's Work Pants, Overalls, Gloves, Socks, Braces, Belts, Etc., at Bargain Prices.

A Hurricane of Bargains

Will be placed on the tables that will make you hold your breath and gasp with wonder. Our opening values will be the most talked of event in the district.

Children's Fancy Mercerized Socks, white with colored tops, reg. 40c. for 17c.

Ladies' Silk Hose, fancy stripes and clocks, black, white and colored, all sizes values \$1.45 for 39c.

200 only Ladies' Skirts, Jersey Cloth, drill, white voile and black and white check, values to \$3.00 59c.

Ladies' Striped and Plain Voile Blouses, short sleeves, Peter Pan Collar, all sizes at 1.00

Ladies' Shantung Silk Over Blouses, lace trimmed, very fine bargain 2.95

We have Branch Stores all over Canada

Some Outstanding VALUES For The Opening Days

BOYS' BRACES 9c.

Ladies' Middies, white and colors, regular \$2.00, Opening Day 50c.

100 Yards Gingham good Patterns, regular 25c, while it lasts 9c.

200 Yards Canadian Print, good quality reg. to 35c, out it goes at per yard 15c.

Children's White Cotton Hose, per pair 9c.

Children's Ribbed Hose, pink, sky, white, sizes 4 1/2 to 6, pair 17c.

Ladies' Ribbed Vests, Summer weight, each 19c.

Children's Blue and Khaki Panty Dresses, regular 79c for 49c.

Ladies' Stockinette Bloomers, pink and white, all sizes at 48c.

Men's Cotton Socks, black, grey and brown, regular 25c for 15c.

Ladies' Silk Boudoir Caps, wonderful values 98c.

Ladies' White Longcloth Underskirts, trimmed with Torchon Lace, reg. \$1.50 79c.

Ladies' Black and Brown Cotton Hose, reg. 30c 17c.

Ladies' Silk Camisoles, pink and white lace trimmed 89c.

Our business is increasing every year. You will not be surprised when you see our values.

A Great National Project

The people of Western Canada are strongly in favor of the completion of the Hudson's Bay Railway and the opening of what has been termed the route "over the roof of the world" for prairie grown grain, cattle and other products to the markets of Great Britain. Millions of dollars have already been spent and a few millions more will carry the rails to tide-water. But while Western people favor the completion of the road and proving the feasibility and practicability of the route, their voice has been largely inarticulate in making their demand effective in the face of strong Eastern opposition.

Steps are now being taken through the organization of the "On-to-the-Bay" Association, with branches in every section of the West, to so organize existing public opinion that its voice may be heard insistently and loud, and pressure brought to bear on the Federal Parliament to vote the necessary appropriation for the completion of the railway. There should not be the slightest hesitation on the part of prairie dwellers to join the "On-to-the-Bay" Association; on the contrary, their support should be unanimous and enthusiastic.

Objection is raised in the East that the Hudson's Bay route is dangerous; but the St. Lawrence route to Montreal is notoriously one of the most difficult and dangerous in the world, yet it has been made a success until Montreal is now one of the great ports of the world. It is further objected that continual dredging at the Bay ports will be necessary; but everybody knows that this is equally true in the St. Lawrence. It is argued by opponents that ice in the Hudson's Straits will prove an insurmountable obstacle; but the ice is just as big off the Straits of Belle Isle and Cape Race, and in addition the Lower St. Lawrence route suffers from fogs which make the ice doubly dangerous, where as the Hudson's Bay is free from fogs. Finally, it is objected that the ports on the Bay are not natural harbors; but many of the great harbors of the world are not so by nature, including Montreal and Dover.

With difficulties to be overcome no greater than those contended against successfully in making Montreal a great port, there is the decided advantage from the Western standpoint that the Hudson's Bay route from the heart of the wheat growing prairies to Liverpool is 1,000 miles shorter than it is by way of Montreal, which means the saving of an expensive rail haul of that distance.

Only ninety-two miles of steel remain to be laid to bring the Hudson's Bay railway to the sea. A well organized and insistent demand by the ever-increasing political power of the West can bring about the realization of the long cherished ambition of the prairies for their own outlet to the sea and the shortest of all routes to the markets of the world. This is not a political question in a partisan sense. Every political party in Canada has declared in favor of the building the railway. It can never be made a party football as far as Western people are concerned, but the political group which proceeds to fulfill its promise to the West regarding this vitally important matter is bound to gain substantial support as a result.

However, it is not the fortunes of political parties which are paramount or at stake; it is the economic welfare and prosperity of the whole of Western Canada that is involved, and bound up with the prosperity and development of the West is the future of the whole Dominion. It is not party loyalty but national patriotism which urges immediate action; it is not sectional interests but national interests which call for Parliament's consideration without further delay.

While Eastern opposition is publicly based on objections to the feasibility of the Hudson's Bay route, and through a professed desire not to squander public money on a scheme which they declare must end in failure, the all too apparent fact is that this opposition arises through selfish fears that the route will prove such a success as to divert the enormous traffic now flowing from the West through the Great Lakes to Montreal in summer and by the all-rail route to the Atlantic ports in winter.

That this is the real reason is to some extent proven by the fact that the Ontario Government is steadily extending its own Northern Ontario railway towards its fixed terminus on James Bay, the southernmost part of Hudson's Bay. Ontario does not propose to be caught napping with the opening of the Hudson's Bay route, and the completion of the Western route to the Bay would almost certainly be quickly followed by the running of the Ontario line to James Bay.

And whatever diversion of Western traffic from Eastern ports might result would be more than offset by the increased prosperity, settlement and development of Western Canada, resulting in a largely increased market for Eastern goods throughout the whole prairie country.

Let it be repeated, therefore, that the Hudson's Bay railway is not solely a sectional policy designed to benefit the West, and the West only. Primarily it is designed to do that, but in its ultimate effect it will benefit all Canada, and promote the interests of both West and East. It is a great national undertaking which has been too long delayed. A frank acceptance of this fact by opposing interests in the East would do much to better relations between the two great geographical divisions of the Dominion.

Reduction in Lakehead Stock
Grain in store in the elevators at the head of the lakes has already dropped to a point below one-half of what was there at the opening of navigation. The decrease in stocks by over eleven and a half million bushels brought the stocks in store on May 10 below those of the corresponding date of last year.

In parts of Manchuria, where copper coins are scarce, matches and postage stamps are used for small purchases.

Sugar Exports
Canadian, refined sugar, valued at \$2,029,558, was exported during the month of March. In March, 1923, the exportation was valued at \$1,681,869. During the twelve months ended March, 1924, 115,720,955 pounds were exported.

English women are more careful than are men when mingling with London's traffic, which accounts for the fact that only a third of the victims of street accidents last year were women.

"Headaches, Bilious Spells, Are Now All Gone"

Mrs. John Ireland, Nobleton, Ont., writes:

"I was a great sufferer from severe headaches and bilious spells. I tried a number of remedies without obtaining any benefit until I was advised to use Dr. Chase's Kidney-Liver Pills. These completely relieved me, and made me feel like a new person. I am very grateful to Dr. Chase's Medicines for what they have done for me, and you may use my letter for the benefit of others."

Dr. Chase's Kidney-Liver Pills
25 cts. a box of 25 pills, Edmondson, Bates & Co., Ltd., Toronto

Devices System For Secret Radio Messages

United States Inventor Will Demonstrate Device in London

John Hays Hammond, Jr., the United States inventor, left Rome for London to demonstrate his latest device in radio transmission. He has entered into a contract with the Italian Government for a number of transmitting and receiving sets.

The system permits of secrecy in radio transmission and enables each station to send more than one message simultaneously on the same wave length. Great utility in wartime is claimed for it because it makes use of certain combinations of wave lengths which must be known before a message can be picked up. In commercial use it would permit broadcasting stations to charge a fee for listening in on their programmes.

Old Reel Films Useful

Coating Yields 112 Ounces of Silver To Ton

What becomes of the millions of miles of old "mottle" films which have served this time in amping the public? When a film has been thrown aside as "junk" it is cleaned by a special process, which removes the chemical coating. This coating is capable of yielding silver at the rate of 112 ounces to the ton. The cleaned celluloid strips sometimes pass into the hands of shoe manufacturers, and a considerable portion of the "patent leather" tips on shoes are the result. So you may at the present time be wearing on your feet a bit of film which has once held a charming curls of Mary Pickford or the laughter-provoking feet of Charlie Chaplin.

All those who suffer from weak, aching backs, those whose muscles are stiff, whose joints are swollen, let them try Nerviline—the instant relief never fails. 35c at all dealers.

2 Years' Backache

Subdued by "Nerviline"

"Backache was the bane of my life, and for two years I was so afflicted as to be unfit for work," writes E. S. Sloane, from Georgetown. "While in Smith Bros. Drug Store, I heard of Nerviline being a wonderful pain-destroyer, so I decided to try Nerviline. Thanks to Nerviline, my two years' backache was rubbed away, and to-day I am perfectly well."

All those who suffer from weak, aching backs, those whose muscles are stiff, whose joints are swollen, let them try Nerviline—the instant relief never fails. 35c at all dealers.

New Chinese Race Found

Have Curly Hair and Keep No Account Of Their Age

Blood Chinese, with curly yellow hair and women who keep no account of their ages have been found by an expedition of the National Geographic Society sent into the unexplored Kamsu region of Asia.

Reporting to the Society's headquarters at Washington, Frederick R. Yu-lin, leader of the expedition, told of a trip on the Yellow River on a raft made of 72 yak skins. The "Toguns," meaning ethnic men, were the most interesting people encountered, he said, and it was among these that the question of age has no importance. He adds that the unmarried women were from 20 to 20 brails of hair.

CHILDHOOD INDIGESTION

Nothing is more common in childhood than indigestion. Nothing is more dangerous to grow, grow more weakening to the constitution or more likely to pave the way to dangerous disease. Fully nine-tenths of all the minor ills of childhood have their root in indigestion. There is no medicine for little ones to equal Baby's Own Tablets in relieving this trouble. They have proved of benefit in thousands of homes. Concerning them Mrs. Jos. Lanette, Tannaculate Conception, Que., writes: "My baby was a great sufferer from indigestion, but the Tablets soon set her right, and now I would not be without them." Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

Get Radio Certificates

Certificates of proficiency in radio telegraphy have been issued by the department of marine and fisheries to the following:

Saskatchewan: S. J. Baber, R. K. Campbell, C. G. Cox, Joseph Jaw, W. Y. Honeysett, Strathburg, L. H. Paras, Regina, Alberta: G. C. Hamilton, Edmonton; A. J. Ober, Vulcan, British Columbia: A. G. Carlick and C. W. Purrier, Vancouver; J. F. Wilson, Point Grey.

Electricity From The Air

Successful Experiments Which May Ultimately Lead To Valuable Discovery

A successful beginning is reported to have been made in the extraction of electricity from the atmosphere on a commercial scale at Pabna, a village in Bengal. In a communication to Nature, Mr. K. P. Bhattacharyya says the preliminary experiments began in November, 1922, and were made with large paper and linen kites, wound with a network of copper wires connected to tufts of pointed wires, and communicating with the ground by a cord formed of all-covered copper wire. Owing to rapid oxidation, however, the copper wires were replaced by silver wires. The kites rose to nine hundred feet, when it was found that sparks could be drawn at short intervals from an insulated rod attached to the lower end of the metal kite string. The sparks varied in length with the condition of the atmosphere, but were obtainable day and night in any weather, and by means of a special transmitting device were made to yield a continuous alternating current. Encouraged by this, the experimenters replaced the kites by aluminum balloons filled with hydrogen gas, and intended to float at a height of one thousand feet. On their surface was a network of a network of thin metal cable and conductor. No details of cost are available, but obvious success in obtaining a supply of electricity at this low altitude opens up considerable possibilities.

New Device For Dumb

Manipulation of Fingers Produces Words From Magical Box

How to make a scientific instrument speak by means of an artificial tongue has been demonstrated by Sir Richard Paget before the Institute of Electrical Engineers.

Sir Richard, taking a small dummy voice box and blowing air through it by a rubber tube, so manipulated his fingers that he was able to make the box produce vowels and words. The magical box also called on Sir Oliver Lodge and Professor Vernon Boys by name.

A model was used containing an organ reed as a substitute for the vocal chords. Pairs of pot-shaped resonators gave the effect of the mouth cavity and spoke the vowels like a human being. Another instrument, recently invented by Dr. Edeles, was operated in this the resonators were merely tuned electric circuits after the manner of a wireless set. The vowel sounds were produced by a "loud speaker," apparently by depressing a series of keys.

These experiments suggest the possibility of the dumb being able to speak by regulating the air in an artificial mouth box with their fingers.

No matter how deep-rooted the corn may be, it must yield to Halloway's Corn Remover if used as directed.

Surveyed Australian Coast

Aviators Make 8,500-Mile Voyage In Ninety Hours

Aviators McIntyre and Goble completed their 8,500-mile voyage around the world by accomplishing the feat in 90 flying hours.

Escorted by a fleet of welcoming airplanes, they alighted on the summit of Saint Kilda to the accompaniment of cheers from crowds lining the shore. The voyagers were officially greeted by federal and state ministers and army and navy representatives and were guests at a civic reception.

The flight was undertaken to survey the coast for defence purposes, to seek possible aviation bases and to collect data concerning the effect of tropic conditions on airplanes.

Build Large Lumber Mill
Granville Island, Vancouver, is to have another addition to its already many and varied industries, work having been started on the erection of a lumber mill there for K. M. McNeill. Approximately \$300,000 of foreign capital has been invested with the installation of the mill, it is intended to handle both hard and soft woods.

As a verminicide an excellent preparation is Mother Graves' Worm Exterminator. It has saved the lives of countless children.

If you wash your phonograph records with soap and water and rinse well with clear water, then dry well, they will sound clearer.

A vessel enroute to Constantinople was agged by radio, after being stranded for eight days on an island in the Mediterranean.

Spanish King Accepts Poultry From Dominion

Pen of White Leghorns Exhibited By Canada At Barcelona

King Alfonso of Spain, who, with the Queen and Crown Prince visited the Canadian exhibits at the World's Poultry Congress at Barcelona, Spain, accepted as a gift from the Dominion a pen of White Leghorns, according to cable advice received by the department of agriculture, Ottawa.

The 1927 World's Poultry Congress will be held in Ottawa, the cable said. This was decided at a meeting of the members of the congress.

Simple and Sure—Dr. Thomas' Electric Oil is so simple in application that a child can understand the instructions. Used as a liniment the only direction is to rub, and when used as a dressing to apply. The directions are so plain and unmistakable that they are readily understood by young or old.

Therapeutical Value Of Colors

Different Shades Said to Have Effect On Mind and Body

Some colors are stimulants and some are sedatives, and judicious prescriptions of the proper shades will bring beneficial results to individuals of weakened or diseased minds, and even for persons of normal mentality in ill-health. This is the theory of Dr. William A. Bryan, superintendent of the Worcester State Hospital for Mental Diseases.

He reports that color baths, originated by him, are being used effectively as a cure for insanity, suggesting that an external application of Nile green may be just what many sufferers need to tone up their systems as a spring tonic.

The "green room" at the hospital is the most striking sample of his experiments. The walls are painted a light green and the transparent green shades of the windows make the sunlight which sifts through them of the same hue. Four large bath tubs are the only furnishings, and they also are painted green. Victims of mental distress, sit in water baths in the tubs, leaving only their heads exposed.

Grain From Grand Prairie

Shipments of grain from the Grande Prairie and Peace River districts over the Edmonton, Danver and British Columbia Railway during the past season have totalled 2,471,000 bushels of wheat and 1,709,600 bushels of other grains.

Okanagan Onions

Approximately 4,000 tons of onions were grown in the Okanagan during the past season, principally around Vernon, Kelowna and Armstrong. The crop was a fair one and the prices paid such as returned a fair profit to the growers.

Take Up Irrigated Land

Besides the irrigators who have already arrived to take up land in the Irrigated Lethbridge district, another party of 64 members from Britain have also just landed in the area.

Minard's Liniment for Disasters

Comments League of Nations

Has Much to Its Credit Says Canada's War Premier

Sir Robert Borden, Canada's war premier, while addressing the Canadian Club, Hamilton, on the work of the League of Nations, announced that he had no intention of returning to public life.

"After reciting the events which led up to the formation of the League of Nations, Sir Robert said: 'I hear criticisms now and then of the League, but I provide a system whereby the nations of the world can be called together for a conference.' It has more to its credit than any one of us can realize. I need not refer to the fact that it has averted war five times in the last four years. 'I commend it to you, because it is teaching the nations of the world the habit of coming together for co-operation.'"

Miller's Worm Powders not only make the infant's system unclean, but for worms, but by their action on the stomach, liver and bowels they correct such troubles as lack of appetite, biliousness and other internal disorders that the worms create. Children suffer from worms and no matter what condition their worm-infested stomachs may be in, they will show improvement as soon as the treatment begins.

The traveller entered the waydine inn to lunch, and on looking at the menu was struck by the fact that the steak was mentioned twice, but priced differently. To satisfy himself as to the better article, he made inquiries through the waitress.

"Oh," she said in reply. "You get a sharper knife with the dearer steak!"

MRS. GERTRUDE WHITE

"I was a great sufferer from severe headaches and bilious spells. I tried a number of remedies without obtaining any benefit until I was advised to use Dr. Chase's Kidney-Liver Pills. These completely relieved me, and made me feel like a new person. I am very grateful to Dr. Chase's Medicines for what they have done for me, and you may use my letter for the benefit of others."

IF YOU ARE NOT WELL HERE IS YOUR KEY TO HEALTH!

Hatfield, Ala.—"Being run-down after the flu I was in a weakened condition, had dizzy spells, and shortness of breath, followed by faintness. The middle age period made things seem as though I'd never feel well again, but I was determined not to give up. Hearing of Dr. Pierce's famous Golden Medical Discovery I sent for a bottle, followed by a second, and soon felt less tired and faint, and finally I got back to my normal state. I have thanked God many times for the restoration of my health so I could remain with my family, and I gladly recommend Dr. Pierce's famous Golden Medical Discovery to all who are run-down. It is so pure and so safe that I have used it in both sexes and in all ages. Send Dr. Pierce 10c for full particulars of his medicine." Write Dr. Pierce, Free, Iowa City, Iowa, N. Y., for free medical advice.

TRAINING SCHOOL IN BRITAIN TO AID EMIGRANTS

London.—The colonization department of the Canadian National Railways here is formulating a new training school for intending British settlers in Canada, including preliminary instruction in England, to be followed in the Dominion by practical contact with farming conditions.

It is hoped that the scheme will enable likely settlers who, however, possess no agricultural experience, to get acquainted with Canadian agricultural conditions before embarking. It will also enable the Canadian National Railways colonization department to make a more careful selection of those who profess themselves already experienced in farm work.

About two months ago the Canadian National Railways, through Dr. W. J. Black, European manager of the Canadian National department of colonization and development, signed an agreement with the Overseas Settlement Committee with a view to encouraging the settlement in Canada of groups of families on specially selected lands adjacent to the railway. This scheme included provision of expert advice and also financial assistance for settlers.

Should Improve

Dairy Products

Canadian Dairy Commissioner Would Have Quality Brought to Highest Point

Ottawa.—"The solution is to bring the quality of Canadian cheese up to the highest point," said J. A. Bush, Canadian Dairy Commissioner, addressing the House Committee on Agriculture and Colonization.

New Zealand was now exporting more cheese than Canada, and if her export of butter increased to the present rate, the world would be exporting more butter and cheese than any country in the world.

Mr. Ruddick had, however, never seen a New Zealand cheese with the fine flavor of the finest Canadian.

Yukon Dredge Sinks

Cause of Accident in Klondike River Is Unknown

Dawson.—Dredge number four, operated by Burrall and Balld, Ltd., sank in 25 feet of water. The accident occurred in the Klondike River between Bear and Hunker Creeks. The cause of the sinking is so far unknown. The dredge was in winter quarters and the crew were preparing it for the summer work. The dredge was built in 1912 at a cost of \$100,000. It had a capacity of 10,000 yards a day and at the time built was the largest in the world.

Will Discuss Bay Route

Moose Jaw.—The executive of the Associated Board of Trade of Saskatchewan will meet in Moose Jaw in July. The agenda to be discussed includes discussion of the Hudson Bay Railway, and a buffalo reserve for Saskatchewan.

New Vancouver Daily

Vancouver.—Announcement is made that the Vancouver Daily Star, an independent evening newspaper, will make its appearance in a first edition on June 2. The publisher is Charles E. Campbell.

SAYS CRITICISM OF SENATE BASED ON IGNORANCE

Ottawa.—"Senate reformers," said Hon. H. Dandurand, Government leader in the Senate, "had better await some concrete proposal from the Government." The Senate had under discussion at the time the Turin reform calling for reform of the Upper House by reduction in numbers.

Senator Dandurand said there were two criticisms of the Senate—the mode of appointment and the term of office. Sir John Macdonald had argued that the Senate should be sympathetic with the Government, but believed that it would be better to have a critical second chamber, as the former would be too prone to simply affirm Government legislation. He had found that criticism of the Senate was based generally on ignorance of the work of that body. The Senate, every session, did much to modify and improve legislation, and his suggestions were generally accepted by the House of Commons. If economy was sought, a reduction in the Senate should be concurrent with a reduction in the House of Commons.

W. N. O. 1936

American Capital Interested In Alaskan Sodium Deposits

New York.—A syndicate of American capitalists has taken an option on the sodium sulphate "lake" at Alaskan, Sask., and has sent an expert to report upon the deposit. "If the sodium sulphate is as pure as Canadian reports indicate it is, development work will be started early in 1925. Some 300,000 tons of sodium sulphate or Glauber's Salts are used annually in the United States and Canada. If the Alaskan salts meet the specifications called for by the market, the present option holders anticipate no difficulty in selling their output. Most of the Glauber's Salts now used in industry is a synthetic product, by-product of the manufacture of muriatic acid.

Aliens Smuggled Into States

Alleged Traffic Across River Between Canada and Detroit

Detroit.—Hundreds of aliens, denied admission to the United States through legal channels, are "bootlegged" across the Detroit and St. Clair Rivers from Canada every night, declares P. L. Prentiss, in charge of the 11th immigration district. He does not attempt to estimate the number smuggled across the line each year through Detroit, which is believed to be one of the principal centres for such activities. Several methods are used to "bootleg" aliens into the United States.

A known ring on the Canadian side transports aliens at from 110 to 425 head across the river in small boats. These smugglers have recently become so bold that they carry on their operations in broad daylight. Other aliens effect entry by posing as American citizens when they arrive on the numerous ferry boats plying between Detroit and Canada. These ferries carry monthly 500,000 passengers.

British Diplomat Dead

Sir Edward Goschen Was Ambassador At Berlin When War Started

London.—Sir Edward Goschen, the man to whom Chancellor of the Exchequer, Mr. Lloyd George, has attributed the British neutrality treaty as a "scrap of paper," died at his home here.

Sir Edward was a veteran of the British diplomatic service, which he entered in 1865, and at the outbreak of the war was British ambassador at Berlin, taking a prominent part in the negotiations there in which the German chancellor vainly tried to ensure British neutrality during the pending conflict. It was at his final interview with Sir Edward that the chancellor's famous remark went into the British diplomatic records.

In 1892 Sir Edward was secretary of the British embassy in Washington, and the following year acted as charge. Later he served as minister to Serbia and Denmark, and as ambassador to Austria-Hungary, going to Berlin in 1906. He was born in 1817, educated at Rugby and Oxford, and was created baronet in 1916.

Saskatchewan Wheat Pool

Clean-up Day Has Been Set For June 10th

Regina.—June 10 has been definitely fixed as clean-up day for the Saskatchewan Wheat Pool. It was announced by L. C. Brouillette, secretary of the Saskatchewan Co-operative Wheat Producers, Limited.

Mr. Brouillette said it was expected they would be able to pass the 7,000,000-acre mark by the end of June. "To date there are 5,530,000 acres under contract," he said, "and we were able in one day last fall to sign up more than 2,000,000 acres."

"Very little change is going to be made in the organization of the committee," but special organizers are being sent out to line up the districts, appoint key men, and give them full instructions as to what they will need to do in the big day.

Montreal Handles More Grain

Montreal.—Montreal's grain exports to date exceed those of last year at this time by over four million bushels. It was announced at the Harbor Commissioner's office. The total amount of grain handled, locally from the opening of navigation to May 15, inclusive, was 12,539,526 bushels, an increase of 5,640,526 bushels during the corresponding period of last year.

Aviator Killed In Auto Crash

Melbourne.—Capt. Andrew Lang, former holder of the world's airplane altitude record, was killed when his biplane, in which he was driving, crashed into a fence in a dense fog. He was driving in a 24-hour test. He was a nephew of Andrew Lang, the British author.

Boost H. B. Road

Enthusiastic Gathering Is Held In Regina By Supporters Of The Project

Regina.—Formation of a branch of the H. B. Road Association of Canada in Regina, was decided upon following a mass meeting held in the city hall here.

Enthusiastic support was given to the movement at the mass meeting, when a resolution was passed unanimously and amid loud applause, urging upon the Dominion Government "the necessity for the immediate completion of the Hudson Bay Railway."

It was also decided to send the following wire to Robert Forke, leader of the Progressive party, and Hon. W. R. Motherwell, minister of agriculture, and member for Regina:—"Failure to proceed to the immediate completion of the Hudson Bay Railway, to the detriment will mean serious loss to the farmers of Western Canada."

Thinks Europe Ready For State Of Peace

Italian Paper Bases Belief On Report Of Experts

Rome.—The two-day meeting at Milan between Premier Mussolini and Premier Verhaeghe of Belgium, was productive of fruitful results, in the opinion of both the press and political observers here.

"The Corriere d'Italia," the Fascist organ, which thinks that a meeting between the Italian premier and Premier MacDonald of Great Britain will occur soon, followed perhaps by the one between Signor Mussolini and Edouard Herriot, prospective head of the new French Government, declares Europe is now ripe for a state of peace with the exception of a few states. Even this programme, however, will prove futile, it declares, if the Allies are not firm in their purpose to carry it out at once and completely.

Volcano Gives Danger Signals

People In Hawaiian Islands Are Warned Of Disaster

San Francisco.—Nature's danger signals are flying over the smoky crest of Kilauea volcano in the Hawaiian Islands and great loss of life may be averted if the warnings are heeded, in the view of Dr. T. A. Jaggar, noted volcanologist here, before he sailed for Hawaii. Dr. Jaggar, who is director of the Hawaiian Observatory, has predicted for years that Kilauea would be in action in 1924. Since the present disturbances began he has been recording the volcano's activity.

"The eruption of Kilauea," he said, "portends more phenomena of this sort. The lava in Kilauea's crater has been subsiding for four years, and that is always a danger signal. I look for more violent activity. It equals the eruption of 1790, when hundreds of natives were killed."

Famous French Aviator

PELLETIER D'OISY, better known as "Fivolo," who was recently promoted to the rank of captain in recognition of his record-breaking feat in hopping from Paris to Tokyo, in Indo-China, in 74 flying hours.

London's Social Season

Splendor of Royal Court Held at Buckingham Palace

London.—London's social season of 1924, which is expected to be the busiest and most brilliant since the glorified days before the war, began with the real splendor of a royal court held by the King and Queen at Buckingham Palace.

As is the custom with the first court of the season, the guests, numbering 1,600, were drawn mainly from diplomatic and official circles, but there was also a small number from the general circle of society, among them several Canadian debutantes.

When all the invited thousands were assembled, the King and Queen, with their courtiers and royal kin, passed through the entire range of the state apartments, the court officials, with the white wands of office, proceeding with their faces to the sovereigns.

The procession ended in the hall room, where the King and Queen took their seats in front of twin thrones, on a low dais, with their family and court around them. As they appeared, bands within and without the palace struck up the national anthem, and then the dozen of the diplomatic corps advanced and bowed, followed by all the guests, each advancing at his or her name, with bow or curtsy, repeating the obeisance when directly in front of the thrones, then for a third time before passing out.

Honors For Lenine

Moscow.—The Soviet Government has given the new name of Oulan-ovsk to the city of Chimbirsk, birthplace of the late Premier Lenine. Oulan-ovsk is the real name of the Bolshevik leader.

SOUTH SEA CHIEFS VISIT EMPIRE EXHIBITION

Two genial Fiji chiefs who reached Vancouver on the R.M.S. Makura en route to the British Empire Exhibition over Canadian Pacific lines, on the 10th inst. in Rain P. Voh, hereditary chief of the Province of Macuata, whose first visit to England was in 1909, when he was one of twenty Fijians who attended the coronation of King Edward VII. On the 10th inst. he was accompanied by his son, who was decorated by the British Government for his services to the Empire during the Great War. He rules as chief over 4,600 natives of the Province of Macuata.

British Empire Exhibition To Be Closed On Sundays

London.—If Sunday opening of the British Empire Exhibition is not allowed, fully ten million people will be unable to witness the big show, because they will not have the opportunity to do so on week days, it is admitted by Lord Stevenson, chairman of the standing committee. In view of the fact, however, that legislation would be necessary to legalize Sunday opening, and organized opposition to throwing the exhibition open to the public on Sundays would have to be counteracted, Lord Stevenson says the project seems impossible.

Proposed Further Power Development

Power Company Ask Right to Store Water In Kootenay Lake

Nelson, B.C.—The West Kootenay Light and Power Co., has applied to the provincial water rights branch for the right to store 678,500 feet of water in Kootenay Lake. If the application is granted, it is the company's intention to dam the Kootenay River at Granite, submerging the Graham Rapids, and raising the lake low water level at Nelson six feet. The company's number 2 plant at Upper Bonington develops 30,000 horsepower, but the number one plant at Lower Bonington, now under construction, will develop an equal amount. With the six feet lake storage proposed, each plant will have a capacity for the two plants of 110,000 horsepower. The constantly increasing requirements of the Consolidated Mining and Smelting Company of Canada for its Trail plants are the motives for the proposed further power development by the West Kootenay Company, which is a subsidiary of the Consolidated.

Bandit Aided Recovery Of Cached Currency

Pleaded Guilty to Robbery and Was Given Suspended Sentence

Vancouver.—Smiling Johnny Reid, bank bandit, who had been sent for trial by Magistrate Alexander, pleaded guilty to complicity in the robbery of the Royal Bank branch at Ladner, B.C., when \$128,000 in bonds and cash were stolen, and was given two years' suspended sentence. The robbery of the bank occurred March 28, 1922.

Reid was given a similar sentence in Lebbidge recently for being implicated in a bank robbery in that province. He has been responsible for the return of approximately \$900,000 in currency and bonds that were cached by bandit gangs of which he was a member and which worked in Canadian provinces and border states.

League Investigating Reform Of Calendar

Committee Also Seeking to Find Fixed Date For Easter

Paris.—The Academy of Sciences received the members of the special committee of the League of Nations appointed to investigate the possibility of a reform of the calendar.

The committee men are charged with the mission, which it is jokingly declared in some quarters would dash the hopes of old maids of abolishing leap year. To this assertion members of the committee smilingly declared that maids of any age should be able to propose on their own hook during any year.

The main object sought by the committee seems to be finding of a common fixed date for Easter, avoiding the present divergence between the Catholics and Greek Orthodox faiths, and then to examine into several ingenious plans for subdividing the years.

Photos By Telegraph

New York.—A new and simplified method of transmitting pictures over long distance telephone lines has been announced by the American Telegraph Company. By means of the process photographs were transmitted here from Cleveland in less than five minutes. Within 44 minutes after a picture was developed in the Ohio city, it was exhibited, completely developed, to a group gathered here in one of the A.T. & T. offices.

May Resign Washington Post

Tokyo.—Ambassador Hishidaira may be "permitted to resign" his Washington post shortly, Premier Matsuo told newspapermen.

The Premier's statement was made to a gathering of representatives of the Japanese press after a Cabinet meeting at which he admitted the embassies had been discussed. The statement was the result of instant inquiry.

FOR THE PUBLIC TO JUDGE, SAYS SIR THOS. WHITE

Toronto.—It is for the Canadian Parliament and the public to decide on the question of negligence or no negligence on the part of Sir Thomas White as finance minister in connection with his handling of the Home Bank situation, according to a statement issued by Sir Thomas, here. This statement is in the form of a written reply to the argument of Eugene Lafleur, K.C., government counsel, in the course of the investigation at Ottawa. Sir Thomas further states that any expression of opinion by Commissioner MacKinnon in respect to this phase of the matter can only be personal and have no judicial quality or weight because of lack of jurisdiction.

Sir Thomas says in part: "Mr. Lafleur argued that I am in error as to the meaning of the order-in-council as to justification for investigating through an outside auditor. My submission is, and has been, that any pronouncement by your lordship upon the question of justification or on the so-called error of judgment, suggested by government counsel would be to bring under determination, by your lordship, the unconditional discretionary executive action of the minister for which he is responsible only to parliament and the Canadian people. This would only be a roundabout way of doing what Mr. Lafleur says he is not asking your lordship to do and which he has already had to do alone, namely the question of negligence or no negligence, on the part of the minister."

Canada May Demand Envoy To Washington

Want Same Concession As Granted To Irish Free State

London.—A correspondent of the Daily Telegraph says the concession granted to the Irish Free States in the matter of an independent minister at Washington already had an important result in that the Canadian Government has decided that it must obtain equal advantages.

The Telegraph's correspondent proceeds by stating that this concession to the Irish Free State is bound inevitably, to have far-reaching consequences as the Imperial representation in foreign countries will be undermined and a constitutional problem of considerable gravity must be solved. If there is an Irish minister in Washington, he says, why not a Canadian minister in Paris, or an Australian minister in Tokyo? The control of Imperial foreign relations will become an impossible task.

U.S. Navy Far Behind Britain's

Washington.—At least \$150,000,000 must be expended if the United States navy is to equal Great Britain's in strength, the House was told by Chairman Butler, of the Naval Committee.

Before the close of the present session, he said, action will be sought on a bill designed to establish so far as the United States is concerned, the 5-5-3 arms conference ratio.

Plunged Over Wharf

Nelson.—Arthur Flow, fireman on the government tug Valhalla, was seated in his automobile on the Proctor Wharf, with the engine running when the car suddenly started forward and went off the wharf into 30 feet of water. Flow came to the surface and was rescued.

TAKES EXCEPTION TO STATEMENT ON IMMIGRATION

Ottawa.—Some remarks made by the Duke of Connaught in London upon immigration to Canada were called to the attention of the House of Commons by Frank Cahill (Liberal, Ontario). The Duke said, among other things, that "we would like to have in Western Canada, English, Norwegian and Swedish people, who make the best immigrants." Mr. Cahill asked Hon. J. A. Robb, minister of immigration, if he would send some method of informing the public mass of England that immigration into Canada is a Canadian question, which should be settled by Canada.

Mr. Robb replied, in the first place, by stating that the Canadian Government was seeking to encourage British immigrants to come to Canada, and that preferential passenger rates had been arranged for this summer.

As to Mr. Cahill's remarks, he added, that the Canadian Government was anxious to see that it is the British Government's business to manage affairs in Britain.

Local and General Items

H. D. McMillan, of the Cowley Hotel, was in town yesterday.

Mr. J. R. McLeod, of Fernie, has accepted a position as line operator on The Enterprise.

Mr. and Mrs. Peter Patterson and Mr. and Mrs. William Patterson are motoring out to Kimberley, B.C.

Rev. W. T. Young left last night for Calgary, to attend the annual session of the Alberta Methodist conference.

Close on one hundred people were served at the Plaza Cafe on Sunday evening. Pleasing music was rendered by Mrs. Altermatt's orchestra.

A dance will be given in the Union Hall at Hillcrest on the night of Monday, next, June 2nd. Music will be furnished by Mason's Melody Boys.

We understand that the fishing season will open on June 15th. As to what waters will be closed this season, no announcements have been made.

Some time ago a Kansas teacher was caught kissing a pupil and was forthwith discharged. And now the announcement is made that she is "back on the job."

Large numbers of people from this district took advantage of the splendid weather on Saturday last to motor to Cowley for the sports and dance.

The chap whose specialty a few years ago was getting out in the middle of the road, taking off his hat, and flagging a runaway horse, now climbs a telegraph pole when he sees a woman driving down the street, just returning to his car.

Isabella Wallace, beloved wife of Mr. Robert Henderson, passed away at Pincher Creek on May the 19th, aged 73. Deceased was born in Belfast, Ireland, and came to Pincher with her husband, son and daughter in 1908.

A musical service will be held in Hillcrest church on Sunday, June 1st. The Hillcrest orchestra has kindly consented to play and the following will take part: Solo—Mrs. J. F. Smith; violin solo—Mr. J. Royle; solo—Miss Harrison; duet—Mr. and Mrs. Richards; solo—Mrs. Jones; solo—Mr. Bamforth.

Mr. and Mrs. F. Sick, of Lethbridge, announce the marriage of their daughter, Helene, to William Blakeley Ferguson. The marriage took place at the Davenport Hotel, Spokane, on May 15th. The young couple will take up residence at Lethbridge.

The marriage of Miss Blanche, daughter of Mr. and Mrs. P. H. Brooks, of Strathmore, to Mr. A. V. McFarland, district telephone manager of Taber, took place at Strathmore on Victoria Day. Mr. McFarland is well known in this district, having been a member of the Taber Crow League hockey team.

Another evidence of the value of advertising: Last week Peter Patterson picked up a gold watch and chain and left it at our office with request that we advertise for the owner. Our paper came out on Thursday afternoon and exactly thirty-two hours before we went to press we found the owner of that watch.

The case now occupying the attention of judges in Ontario, as to whether or not bootlegging profits are liable to income tax, is very similar to the question arising in Blaimore a couple of years ago in regard to the assessment of a bootlegger's stock of liquor for school district purposes. One Ontario judge is of the opinion that bootlegging profits are not liable to income tax, inasmuch as the state cannot recognize an occupation that is illegal.

Already the bootleggers are beginning to emigrate and hibernate.

Dr. and Mrs. O. Little left last week on a visit to Ontario points.

Mrs. Derrett, editress of the Pincher Creek Echo, was a visitor here on Tuesday.

Mrs. Mike Murphy and Mrs. D. Fleming left by Sunday night's express on a visit to their old homes in Nova Scotia.

Blaimore is believed to be the only town in the British Empire that permits the sun to rise and set on the grand old Union Jack.

COWLEY HAPPENINGS

Robert Bird has returned to Grand Forks, B.C., after spending several weeks here.

Miss Bernice Anderson, who has been on the sick list for a few days, is around again.

The party given for the orchestra by Miss Doris McEwan on Wednesday evening was well attended.

Roland Esterbrook motored to Wrentham the early part of the week to bring back his family, who have been visiting there for several weeks.

Mr. Donaldson is organizing the Boy Scouts here. Most all of the local boys are joining the order. The smaller boys are being organized into the order of "Cubs."

The Christie-Grant Co. open a branch store here tomorrow morning in the building formerly occupied by the Blaimore Furniture Store at the corner of Eighth Avenue and Victoria Street.

The last monthly meeting of the Women's Institute was held at the home of Mrs. M. A. Murphy on Thursday evening. The meeting proved a very interesting one. A flag was purchased to float on the sports field on the day of the 24th. Preparations are being made to give a social evening in aid of the sanitarium for the tubercular veterans of the great war. An up-to-date free millinery course will be given by the Institute here from the 2nd to the 7th of August. Competent instructors will be present during the five days' course.

Despite the threatening weather on Friday, the 24th dawned bright and clear, and the fair weather held throughout the day making the Cowley sports a real success. A record crowd was in attendance from Michel, B.C., on the west, and Lethbridge on the east, including a 20-piece band from Lethbridge. Although the races and other events might be surpassed at other places, it has generally been conceded that Empire Day belongs to Cowley and the people have had the habit for twenty years. The Peigan Indians were also out in full force. A full list of the winners of the different events follows: Horse race, half-mile saddle—1st, J. C. Halroyd, "Ace"; 2nd, Prairie Hen (Peigan). Half-mile pony—1st, Gifford, "Bugo"; 2nd, Diamond "Viola." Walk trot and run—1st, Douglas, "Fern"; 2nd, Garrow, "Banjo." Ladies' half-mile—1st, Elsie Smith, "Scottie"; 2nd, Mrs. D. Foley. Mile open—1st, Mrs. J. C. Halroyd, "Ace"; 2nd, Diamond, "Viola." Slow race—1st, Yellow Horn (Peigan); 2nd, Milna. Half-mile open—1st, Mrs. J. C. Halroyd "Ace"; 2nd, T. Willings, "Dick." Mile, Indian—1st, J. Crow Eagle; 2nd, Bill Bull. Democrat race—1st, T. Lapointe; 2nd, A. Patterson. Half-mile Indian—1st, J. Crow Eagle; 2nd, Little Moustache. Fordson tractor—1st, A. Betts (A. Wright) up; 2nd, J. W. Foster. Relay race—1st, Garrow; 2nd, J. Yellow Horn. Bucking contest—won by Shoemaker. Football competition—1st game: Hillcrest vs Michel, Michel winning 1-0; 2nd game, Hillcrest vs Michel, Michel won, 4 to 1, taking home the silver cup and medals.

WANTED—To hear from owner of good farm for sale. State cash price, full particulars. D. F. Bush, Minneapolis, Minn. May 22

HILLCREST HAPPENINGS

James Howcroft and family are enjoying a visit with friends at Michel B.C.

The regular convention of the Mishap Lodge, Pythian Sisters took place in the Castle Hall on Tuesday night.

Mr. O'Neill, of Blaimore, was a visitor to Hillcrest on Tuesday, but returned to Blaimore the same day, thank goodness.

Miss Irene Harris and Miss Annie Clark paid a visit to Pincher Creek, taking in the dance there on the 23rd, returning home Tuesday.

The next regular meeting of the Women's Institute will be held at the home of Mrs. Jessie Snyder on Thursday, June 26th, at 8 p.m.

An Auction Sale of Sec. 21, Township 7, Range 2, west of the Fifth Meridian, consisting of 604 acres, situate 1 1/2 miles west of Lundbreck, will be conducted by W. T. Eddy at the Windsor Hotel on Saturday, at 1.30 p.m.

Rev. Pinder left Sunday night for Calgary, where he attends the annual Methodist conference. He expects to be away about ten days. The different placements are arranged, and we are all hoping that as far as Hillcrest is concerned there will be no change.

Judging by the crowd at Cowley sports on the 24th, one wondered whether they were in Hillcrest or Cowley, owing to the large number of Hillcrestites there. There were quite a number from Blaimore, also, notably a carload who arrived after the gatekeeper had quit the job, thus leaving no tolls. The one drawback at these sports is that there does not seem to be any facilities for visitors to obtain a good lunch. Hillcrest footballers were unfortunate in losing to Michel. The first team lost by one goal, that goal off one of their own players. The team from Peaceful Valley did very well indeed, losing three to nothing. Only lack of training. We could at present pick a team at Hillcrest that would make Michel hustle.

WANTS TO ADOPT THE OBSELETES

Dere Editur:—I notis from yewer last issue, that yew wonder what will bekum off the bunch off stool pigeons who use tew mawk sich easy munney off over nortorious farmers' gavernment. If yew shood happen tew here off enny lookin fer a job, I an prepaired tew talk them on lookin after my hogs, provided they dew not lern anny off the hogs their dirty tricks, and provided that the hogs dew not object tew beeing looked after by these stool pigeons. I kin guarantee them ten dollars a month, and the same bed and bord as the hogs, provided, as I sed befor, that the hogs dew not object tew their tumpny. I kin also guarantee that the hogs will not turn on them for to eet them and these are pure-bred hogs, and very partikler about their food, hopping that yew kin putt me next tew sun off these fellows, I am, Yewers truly,

Andrewitch Peterpalovskoy

Don't
Son—"I say, father, as it is your birthday, I suppose you'll do some good deed."
Father—"I have done that already. The chauffeur asked for leave to get married and I refused it."
Landlady—"You seem to forget that you owe me for your rent, washing, fuel and attendance. What are you by trade?"
Boarder—"A debt collector."

GOLF

The next fixture in the ladies' programme is an elimination contest in ladies' doubles. The draw is posted and play should be arranged as soon as possible.

The regular monthly competition will be played on Saturday, June 7th. A special prize will be given for the best putting score.

For Funeral Flowers, phone 212. Crow's Nest Pass Undertaking Co.

WANTED—Maternity Nurse now ready for engagement—Apply Mrs. F. Short (residence opposite depot).

BREAD

FOR THE CHILDREN'S SUPPER

there's nothing like bread with milk.

Give the kiddies food that will satisfy their appetites; food that will digest easily; substantial food that will build up their little bodies.

Bread is that kind of food.

Active days! Dreamless nights! These are nature's priceless gifts to children who eat.

Bread is your best food—Eat more of it.
